The EO directs state agencies to terminate contracts with, and to refrain from entering any new contracts with, individuals or entities that are determined to be a target of Economic Sanctions. Accordingly, should the State determine Contractor is a target of Economic Sanctions or is conducting prohibited transactions with sanctioned individuals or entities, that shall be grounds for termination of this agreement. Scope of Work:

A. GENERAL REQUIREMENTS

A. OVERVIEW OF CURRENT SOUND MITIGATION

A general awareness of all OC Fair sound systems is important to understand the critical task of maintaining specific sound levels for all areas in order to minimize the overall impact of sound from the OC Fair onto surrounding neighborhoods.

1. Four (4) primary sound systems exist within the confines of the OC Fair, one (1) of which is required as part of the RFP (a below), and are discussed in brief so as to understand the impact of OC Fair sound:
 - a. The Hangar Building Sound System (indoor) is a semi-enclosed venue, which also includes two (2) small sound arrays flown outside to cover a portion of the Main Mall, and **is a requirement** of the RFP.
 - b. Action Sports Arena Sound System (outdoor) is an open-air venue and is **NOT** a requirement of the RFP.
 - c. Plaza Stage Sound System (outdoor) is an semi-enclosed tent venue and is **NOT** a requirement of the RFP.
 - d. Pacific Amphitheatre (outdoor) is an open-air venue and **NOT** a requirement of this RFP. However, it is referenced in the RFP to ensure Contractor is aware of and understands all major sound systems onsite as noise mitigation is of the highest concern to the District in the interest of being a good neighbor to the community as well as to meet legal requirements. The Pacific Amphitheatre consists of a large line array speaker system along with complex stage monitor systems.
2. Although the OC Fair has a noise injunction specifically applied to the Pacific Amphitheatre, property-wide noise mitigation is required. The injunction states that the sound level must not exceed 55 dB at a specific residence near the OC Fair, specifically located at 547 Serra Way. The house is approximately 2,000 feet from the Action Sports Arena. While sound measurements are specifically taken with respect to 547 Serra Way, they are also taken throughout the surrounding neighborhoods to understand noise levels in the community and minimize the impact of OC Fair sound on them. The District requires immediate mitigation of OC Fair noise levels of 55 dB at any residence in the community.
3. All sound systems will continue to have strict sound control measures in place.

B. SOUND MITIGATION AND MONITORING REQUIREMENTS

1. Contractor is an integral part of monitoring Sound Pressure Levels (SPL). Contractor shall have adequate SPL measurement capability at The Hangar Building and ensure Contractor Personnel is completely aware of maximum sound levels and capable of complying with all requirements listed herein. Contractor shall control sound levels at each of the three (3) venues by ensuring proper levels are maintained, whether Contractor's staff or visiting engineers are running the equipment.
2. For all venues, maximum, broadband (20 Hz to 15 KHz) noise level, measured at front of house (FOH), shall not exceed an average of 95 dB flat weighted, under any circumstances.
3. For all applicable venues, behind stage measured noise level shall not exceed peaks of 70 dB, flat weighted, under any circumstances. This includes indirect FOH system energy, stage monitors, backline equipment and any reflected energy from the surrounding buildings.

4. The District's objective and ordinance requirements are to keep SPL at or below 55 dB in ALL surrounding neighborhood areas where residences are located.
5. Any combination of factors resulting in noise levels exceeding 55 dB in surrounding neighborhoods must result in a lowering of sound level until the level in the neighborhood is within compliance. In summary:
 - a. No more than 55 dB in any neighboring residential area.
 - b. No more than 70 dB, flat weighted, behind stages.
 - c. No more than 95 dB, flat weighted, at FOH.
 - d. If any combination of the above results in greater than 55 dB in any area where housing is located, levels shall be immediately decreased until compliance is met.
6. Contractor shall take measurements during each event to ensure that the level is at or below 95 dB at FOH, 70 dB at the rear of the stage.
7. In all cases, Contractor shall:
 - a. Not interfere with surrounding vendor activities.
 - b. Maintain a level consistent with the program material and audience size to be covered.
 - c. Ensure sound level 10 feet from speakers will not exceed 90 dB if speakers are in close proximity to audience members
8. Contractor shall apply all necessary conditions to each sound system based upon the nature of the amplified program, distance from audience, overall sound system size and distance from surrounding areas.
9. Contractor shall bear complete responsibility for ensuring compliance as indicated herein and as determined necessary by District Management at all times. Including when visiting production engineers are mixing audio at FOH.

10. Contractor shall immediately respond to requests from District personnel to reduce sound levels.

C. GENERAL REQUIREMENTS

Pricing shall include all labor, delivery/fuel charges, equipment, installation, teardown, and any other costs to support the Scope of Work.
2. Contractor shall provide professional quality sound systems for The Hangar Building (see Paragraph E – Venue Descriptions, Equipment Lists, and Requirements below). Sound quality and aesthetic value of equipment is vital.

7. Contractor shall provide sound equipment and personnel for a minimum of twenty-three (23) performance days/nights during the run of the annual OC Fair in addition to setup and teardown. Typically, performances will not take place on Mondays or Tuesdays. Contractor shall support all artists/acts scheduled to perform.
8. Contractor will work closely with District Management and other District Departments to provide an efficient and smooth operation.
9. Contractor shall be responsible for testing all systems and ensuring they are whole and fully functional in order to meet the requirements contained herein or as otherwise agreed upon by Contractor and the District.
10. Any failure(s), including, but not limited to, instrument, system component, and/or outage must be immediately resolved. Contractor shall operate with strategic back-up plans in place and spare parts available to ensure a fully functioning and complete sound system is maintained at all times.
11. Contractor must own a substantial percentage of the equipment used in the service of this Agreement and shall be able to fulfill the District's requirements in their entirety. If additional equipment is required from suppliers, Contractor shall properly tag such inventory, as required in Paragraph D – Equipment Quality and Requirements below prior to installation. Under no circumstances shall an entity outside the awarded Contractor interface with or deliver equipment to the District.
12. All equipment and labor required for setup and teardown must be provided by Contractor. Subcontracting of labor will not be allowed. Contractor will supply a scissor lift(s) and/or other necessary forklift(s) for transportation, installation and removal of sound equipment and systems. The cost associated for this equipment shall be included within the cost reflected on the Financial Proposal Bid Form.
13. The District reserves the right to change and/or add any equipment, specifications, and setup dates upon reasonable notification to Contractor. However, strict adherence to the schedule for purposes of this RFP shall be implemented.
14. All dimensions, quantities, schedule, and other requirements have been estimated as close to final figures and layout as possible, as currently known for the 2020 OC Fair, but are subject to final requirements and final approval by District Management.
15. All sound equipment and systems must be secured in a safe manner to prevent tipping, lifting or falling due to wind or other influences. Weights, anchors or other items used to secure equipment must be included in the cost. Contractor shall be responsible for determining appropriate method to secure equipment and will be held liable for any issues resulting from unsafe installation.
16. The Equipment Lists have been included in Paragraph E – Venue Descriptions, Equipment Lists and Requirements below for the purposes of illustrating the size and scope of the typical annual

OC Fair. It in no way obligates the District to request or secure each or any item in the quantities listed. The District cannot guarantee a minimum and/or maximum amount of equipment used for any performance. The equipment list for the 2020 OC Fair and subsequent annual fairs shall be developed annually and will change from year to year based on performance themes and number of performances. The actual final requirements will be contingent upon final schedule. Contractor shall charge the District for actual equipment utilized and/or as specified on the Financial Proposal Bid Form.

17. The final layout of sound equipment and systems will be identified in conjunction with District Management and/or visiting productions. It is Contractor's responsibility to ensure accurate placement.
18. The annual OC Fair setup is subject to change from year to year.
19. The District may require items not called out in the RFP. The District is to be billed at a rate no greater than the amount charged for similar items listed in the RFP for the applicable event. Such rates shall be determined and agreed upon by the District prior to the delivery and installation of items.
20. Contractor shall provide high-quality color photos, and the following simulations in either MAPP or EASE. In addition, CAD drawings showing exact layout are required in PDF form, including drawings and specification sheets, as applicable, of sound configurations, equipment, structures, weight, rigging, etc., as well as any other information requested by the District that will properly explain system capabilities and operation.
21. Upon fully execution of the contract, Contractor shall immediately begin an analysis and development of sound systems for the 2025 OC Fair and shall have a finalized plan no later than the end of May 2025 or as otherwise agreed upon by Contractor and the District. At this time, Contractor shall present all applicable permits, licenses, and certifications for equipment and personnel, as applicable, as required in the Additional Contract Terms & Conditions.
22. Contractor shall present, for District review and approval, a sound recommendation each year beginning in April 2025, or as stipulated by the District, and every subsequent contract year thereafter, which will contain a proposal outlining the sound design layout and required equipment for that year's annual OC Fair. At this time, Contractor shall also present all applicable up-to-date permits, licenses, and certifications for equipment and personnel, as applicable, as required in the Additional Contract Terms & Conditions.

E. VENUE DESCRIPTIONS, EQUIPMENT LISTS AND REQUIREMENTS

1. The Hangar Building

- a. The Hangar Building seats approximately 1,430 people with additional standing room for 225 individuals.
- b. Contractor shall provide sound equipment and personnel to support various community acts and presentations throughout the day, followed by a mid-level headliner band performance and video presentation at night.
- c. During the annual OC Fair, the venue typically operates from 11:00 a.m. to 11:00 p.m., Wednesday through Sunday.
- d. The Hangar Building sound system consists of a line–array based stage system.
- e. The Hangar Building sound system design is intended to focus the sound into the audience area using a high-Q line array approach. This approach shall include a cardioid sub-woofer array, with the requirement to reduce, as much as possible, rear speaker radiation.
- f. System frequency response should cover the range of 50 Hz to 12 kHz, +/- 4 dB in all seating and audience areas in The Hangar Building (Main Mall system excluded).
- g. Subwoofer system shall not drop below 45 Hz, and should be high-passed at a 12 dB per octave slope in order to prevent extreme low frequency energy from being reproduced. The cardioid subwoofer array will exhibit a minimum of 12 dB less energy at the crossover frequency, at the rear, compared to the level at the front of the subwoofer array, both measured at a distance of 25 feet. The goal will be to make the rejection as broad-band as possible in order to further reduce rear subwoofer energy.
- h. For the purposes of the RFP, Contractor shall allow for speakers to be located approximately L/R of stage when developing sound system design. The system consists of a main L/R house system, cardioid subwoofers (mandatory), front fill systems, outdoor flown small line array delay system (to cover half of the Main Mall outdoor area) and a fully functioning and separate stage monitor system. Contractor shall allow for a trim height of 25 feet for the L/R arrays when developing sound system design. Exact dimensions and requirements are subject to change at no cost to the District.
 - i. Powered speaker systems are preferred.
 - j. Cardioid subwoofers are required to minimize rear subwoofer energy. The large doors to the front of The Hangar Building will be open. Main system line array speakers will fly, either from stage structure or building roof, which shall be determined as soon as practicable prior to the OC Fair.
 - k. Contractor shall, in addition to the primary system describe above, provide a small L/R-2 box, 90 degree horizontal coverage flown array outside to provide proper Main Mall coverage, delayed to main system speakers. This system will fly from The Hangar Building eyebrow.
 - l. Contractor shall also supply ADA listening devices for this venue
- m. The Hangar Building Equipment List is below:
